Organization’s Vision of Impact
Organization’s Vision of Impact

"An organization is a means to overcome the limitations of one person’s contribution.”  ~Peter Drucker

"All organizations are organic and perishable. They are created by people, and they need to be constantly re-created if they are to survive".  
~ Ken Robinson
Organization’s Vision of Impact (cont’d)

What impact does your organization want to have?

Where are you going?

In relationship to your vision –

- Why do you believe that you need to hire staff now?
- Do we need to grow?
- Is staffing the only way to grow?
Organization’s Vision of Impact (cont’d)

**Good Reasons vs. Not-so-Good Reasons to Hire Staff**

- **The “good”:**
  - Demand for services and/or fundraising is exceeding volunteers’ ability to meet it
  - Volunteer and donor support is strong

- **The “not-so-good”:**
  - The nonprofit is struggling – engagement and donations are down; board looking for staff to “rescue”
  - The founder, a board member, or another key volunteer wants a paid role at the nonprofit, rather than continuing to volunteer

- An honest assessment is important at this stage
Current Reality
Analyze Current Reality

- How do we know we are ready to hire staff? What is the current reality of your organization?

- What positions/functions do we currently have?
- How are those positions/functions serving where we want to go or the vision of impact we want to have?
- What do we need right now to close the gap? Executive, Operational, Administrative, Programmatic, etc.

- What is the current state of our finances/budget?
- What can we afford to pay?
- Will the board need to adjust/elevate its fundraising efforts to generate enough funds for the position?
Analyze Current Reality (cont’d)

- Is the board committed and prepared to support, manage, and or partner with staff?
- Are there power dynamics involving a founder or founders that we will need to navigate?

- Is the board prepared to forego the old structure volunteer-only for a new structure with staff?
- What will the board need to let go of, or do differently?

- Does the board have all of the material that it needs to make an informed decision whether to hire?
  - Important to note that it is a board decision whether to hire – not an individual decision of the founder, board chair, major donor, etc.
Transition Process
Transition Process & Mechanics

• From the position/functions needs assessment – determine characteristics, role & responsibilities, desired skills and other qualifications.

• Which directors on the board have the expertise, capacity, and desire to lead the interview and onboarding processes? Who is willing and able to be the main contact?
  - A “hiring committee” approach is good, but someone should be the chair/leader.

• What does our recruitment plan look like? Are there obvious candidates internally or will we conduct a search? If conducting a search, will we use a search firm, and can the organization bear the cost?
If we are entertaining internal candidates, how do we manage a fair process and address conflicts of interest?

- Following the organization’s Conflict of Interest Policy (it’s a good idea to have one)
- If internal candidate is a board member – that person cannot be involved in discussions regarding the hiring process, salary determination, etc.
- The remaining board members must do what is in the best interest of the organization

Consider the adjustments that you’ll need to make - Sacrifice what we are for what we would become – “The thing that the organization needs to let go of is the very thing that got it this far.” Use vision impact as a guide.
