

Three Wishes

Feel free to use bullet points. Write legibly – I'll collect and collate for our next meeting. No need to include your name unless you wish to.

<p>1. What is the organization's mission? Do you think there is a common understanding of the mission among all stakeholders? (Stakeholders are volunteers, partners, collaborators, customers, funders.)</p>
<p>2. What is unique about your organization? That is, even if your organization provides services or programs that are the same as what other organizations provide, how do you do it differently? Or, do you do something completely unique that other organizations don't do?</p>
<p>3. What do <i>you</i> value most about your organization?</p>
<p>4. If you could have three best wishes for your organization's future, apart from a million dollars or unlimited funding, what would they be?</p>
