Unleashing the Full Potential of the Nonprofit Sector

@nonprofitAF

Stuff we'll talk about today

Disclaimers

Why we are so awesome

Why we are so awesome

- ▶ 900 billion to economy yearly
 - ▶ About 6% of GDP
 - ▶ 3rd largest sector
 - ▶ Employs 10% of working folks
 - ▶ Serve millions of people
 - ▶ Change laws
 - ▶ Build community
- 

Society's perception of our sector

Overhead

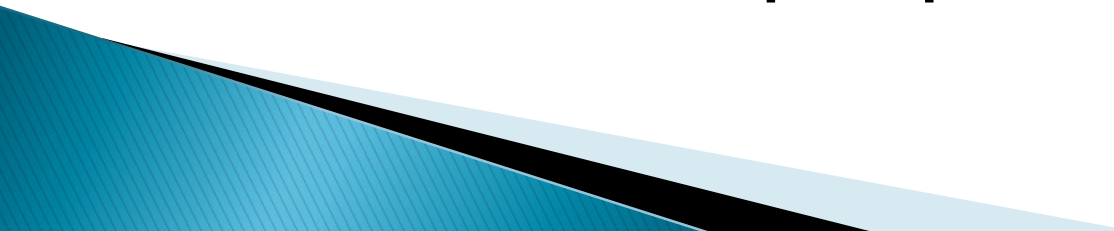

Overhead

- ▶ Most for-profits overhead 30 to 40% or more

Sustainability

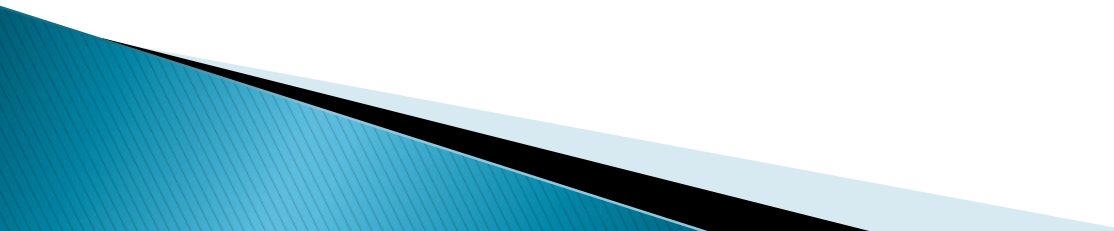

Sustainability

- ▶ “How will you sustain this program when this grant runs out?”
 - ▶ “We will increase individual giving, build relationships with local businesses, and sell macaroni artwork made by kids in our program”
 - ▶ i.e., “We will leave you alone and bother other people”
- 

Bizsplaining

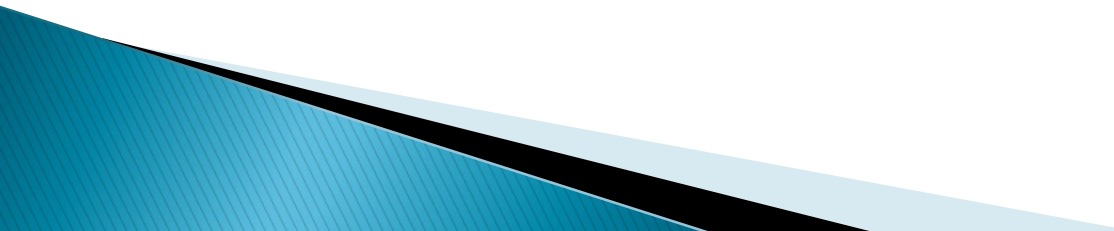

Differences between nonprofits and for-profits

- ▶ As NPO success goes up, expenses go up without equal increase in revenues
 - ▶ Expected to perform miracles on limited funds
 - ▶ Expected to be innovative without risks/failures
- 

Scarcity and Martyrdom

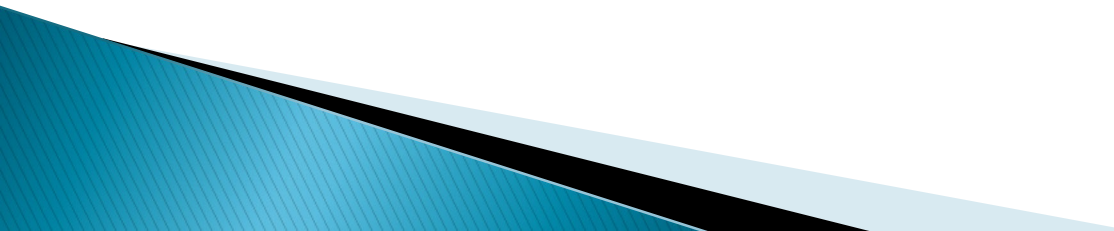

Scrappiness

- ▶ Crappy chairs
 - ▶ Poorly paid staff
 - ▶ Lack of paid family leave
 - ▶ Lack of retirement benefits
 - ▶ Staff qualify for services
 - ▶ Poor infrastructure
- 

The Hunger Games

Hunger Games

- ▶ Competition for funding
 - ▶ Hoarding of donors
 - ▶ Not sharing of data
 - ▶ Turfiness
- 

From Risk-Aversion to Courageous Actions

From “Strategic” to “Adaptive”

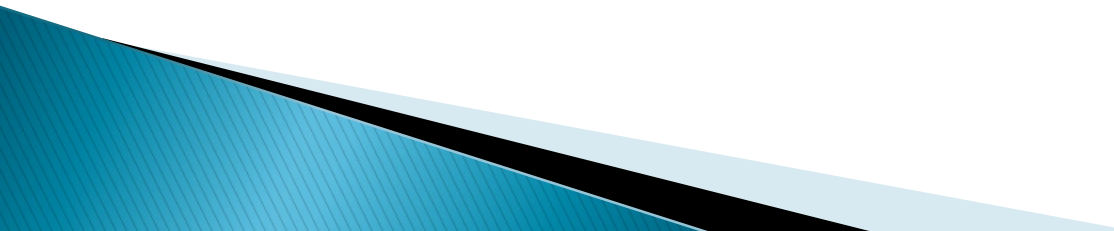

- ▶ Difference between strategic planning and strategic THINKING
- ▶ Failure: The new kombucha

From Donor-Centered to Community-Centric Fundraising

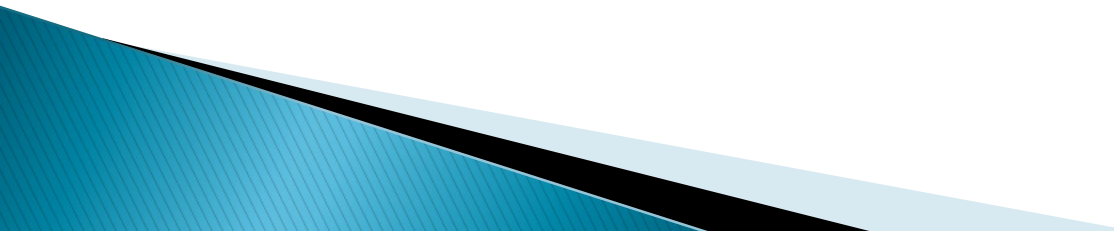

9 Principles of Community-Fundraising

- ▶ Grounded in Race, Equity, Inclusion
 - ▶ Focus on ecosystem, not individual missions
 - ▶ Nonprofits are mutually supportive
 - ▶ All elements (staff, board) are appreciated equally
 - ▶ Time valued equally as money
 - ▶ True partnership with donors, including honest feedback and difficult conversations
 - ▶ Foster a sense of belonging, not othering
 - ▶ Encourage belief that donors benefit equally
 - ▶ Work is holistic and transformative, not transactional
- 

From Suspicion-Based to Trust-based grantmaking

Trust-Based Philanthropy (The Whitman Institute)

- ▶ Multi-Year General Operating Dollars (MYGOD)
 - ▶ Funders also do the homework
 - ▶ Transparent and responsive communication
 - ▶ Solicit and act on feedback
 - ▶ Simplify and streamline paperwork
 - ▶ Support beyond the check
- 

From being “Color-Blind” to having conversations about Race, Equity, Intersectionality

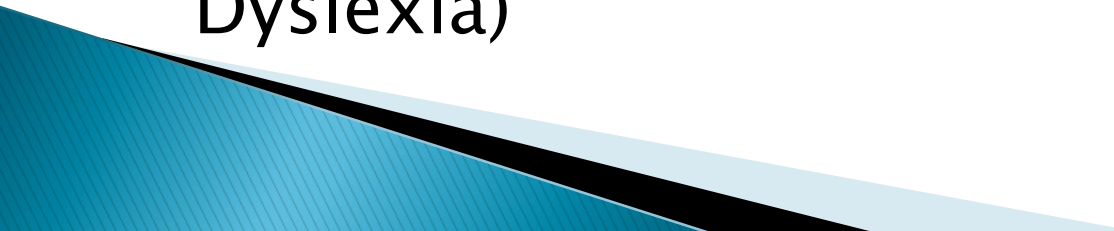

EDI in hiring practices

- ▶ Disclose salary ranges
 - ▶ Remove formal education requirements unless for specialized positions
 - ▶ Remove requirement for working vehicle and driver's license
 - ▶ Take out “must be able to lift 50 pounds”
 - ▶ Hiring people with disabilities
 - ▶ Stop automatically eliminating people based on things like typos
 - ▶ Be thoughtful about criminal records
 - ▶ Do not ask for free labor during search
 - ▶ Rethink unspoken rules such as handwritten thank-you notes
- 

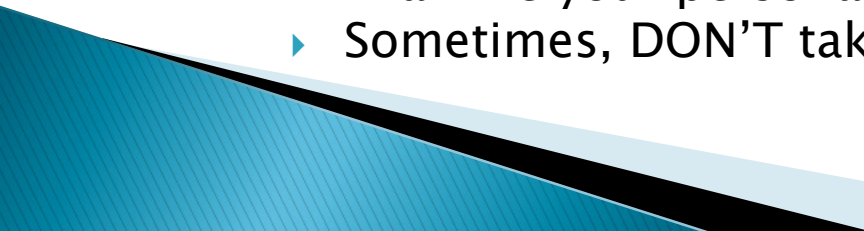

EDI Board Development

- ▶ Board Source: 27% of boards have no POC
 - ▶ 86% white in 1994, 91% in 2004, 86% in 2007, 84 in 2010, 82 in 2012
 - ▶ Analyze board demographics
 - ▶ Train on race, diversity, implicit biases
 - ▶ Get over “color-blindness,” the latest form of racism
 - ▶ Reduce influence on money on board
 - ▶ Change board culture to be more “to-be” (as opposed to “to-do”)
 - ▶ Make sure the next THREE board members are diverse
 - ▶ Don’t join boards where you are part of the problem
- 

EDI in communications

- ▶ Be thoughtful about sharing client stories (don't perpetuate poverty tourism)
 - ▶ Have captions on all your videos
 - ▶ Have live captioning or ASL interpretation at your events
 - ▶ Translate things
 - ▶ Budget for interpretation/translations
 - ▶ Be thoughtful on font size, contrasts
 - ▶ Stop making fun of Comic Sans (it and similar fonts are helpful for people with Dyslexia)
- 

EDI and evaluation

- ▶ Think critically about who is funded, collecting, and interpreting data
 - ▶ Center the experiences, voices, and strengths of communities of color
 - ▶ Be bold in pointing out inequity when you find it
 - ▶ But be careful not to pathologize communities
 - ▶ Hire evaluators of color
 - ▶ Pay community members the same rate as consultants
 - ▶ If you don't have representation, PAUSE the project
 - ▶ Stop Trickle-Down Data and Evaluation, where white-led orgs get all the money, then trickles down small amounts to grassroots POC-led orgs
 - ▶ Advocate boldly for culturally-responsive evaluation
 - ▶ Be community-centric, not mission-centric
 - ▶ Have conversations about race and equity
 - ▶ Reexamine philosophies around data/eval capacity building
 - ▶ Examine your personal motivations and biases
 - ▶ Sometimes, DON'T take on a contract if it's inequitable
- 

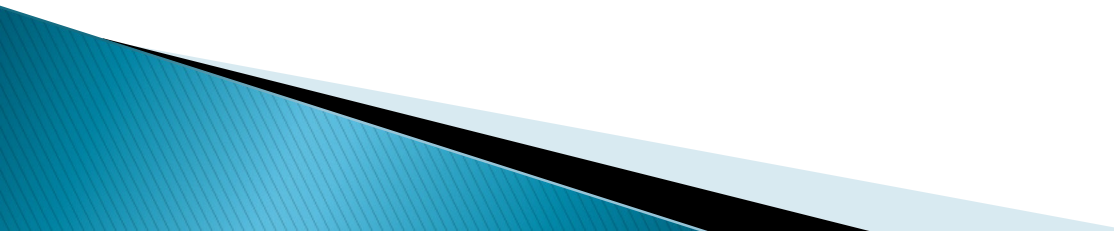

EDI in collaborations

- ▶ Don't engage in Trickle-Down Community Engagement (TDCE)
 - ▶ Go to where people are, physically
 - ▶ Understand community politics and historical trauma
 - ▶ Engage the entire year, not just at one summit/event a year
 - ▶ Establish relationships; it takes time
 - ▶ Do not raise people's hopes without a commitment to implementing their ideas
 - ▶ Pay community members equitably
- 

From Silos to Alliances

The Community Alliance model

- ▶ Central organizations provide back-office support
 - ▶ More fiscal sponsorships, fewer 501c3s
 - ▶ Orgs more focused on missions.
 - ▶ Each org still has strong ED
 - ▶ Boards freed of fiduciary responsibilities, focused on mission
 - ▶ Fundraising: combo of individual/joint efforts
 - ▶ System of mutual support among members
 - ▶ Increased collaborations on systems change
 - ▶ Orgs may spin off or remain permanently
- 

What nonprofits must do

- ▶ Get over our inferiority complex and own our power
 - ▶ Be bolder, take more risks
 - ▶ Invest better in our staff and infrastructure
 - ▶ Collaborate more, and across sectors
 - ▶ Be more transparent with funders and donors
 - ▶ Advocate more, and more strategically
 - ▶ Focus on fighting injustice, not one another
 - ▶ Think about nonprofit ecosystem, not just own mission
 - ▶ Build community alliances
 - ▶ Be grounded in race and equity
- 

What funders must do:

- ▶ Start with Trust, not suspicion
 - ▶ Multi-year, general operating dollars (MYGOD)
 - ▶ Get over sustainability
 - ▶ Rethink “qualifications”
 - ▶ Make big bets on marginalized communities
 - ▶ Be thoughtful about data, track record
 - ▶ Take risks/accept failure
 - ▶ Stop budget testing
 - ▶ Build organizations
 - ▶ Fund faster
 - ▶ Increase payout
 - ▶ Be grounded in race and equity
- 

We are Jedi Unicorns
